The Degree

Students earn our accredited MBA degree for early-career professionals, or our Executive MBA, which adds specializations such as C-Level Strategy, Data Analysis, Entrepreneurship, and Blue Ocean Strategy. Highly competitive, admitted employees learn alongside the best and brightest across industries.

Employer Benefits

The skills your employee acquires in Quantic's MBA or Executive MBA will have an immediate impact on your business and their life — and at little cost to you.

Rigorous Education

Quantic's interactive pedagogy teaches business and leadership skills that are instantly applicable to today's challenges. Efficacy studies have proven Quantic to be as effective at teaching Accounting and Finance as business schools like Harvard, Wharton, and Fuqua.

Fast and flexible

No relocation or hiatus required. Quantic is 100% online and accessible on any device so employees learn on their schedule (and yours) and continue working full time during the 12-month program.

High ROI

Top residential programs can run upwards of \$200K and require significant time off — a burden on both employers and employees. Quantic students graduate with comparable skills and expertise and at a fraction of the cost at just \$9600 USD.

Team Loyalty

Investing in your employees can pay big dividends. Tuition reimbursement is a demonstration of a company's commitment to its employees — a key benefit that helps attract, cultivate, and retain top talent.

Multiple Employee Admission Benefits

Equip your entire team with the know-how to navigate complex challenges and drive your bottom line.
